

Sathwika Kurma

Software Engineer / .NET / Microservices / Cloud

sathwikakurma1@gmail.com | +91-9573171390 | [linkedin.com/in/sathwika-kurma](https://www.linkedin.com/in/sathwika-kurma) | github.com/kstwkiv | sathwika-portfolio-eight.vercel.app/ | leetcode.com/u/krystleaks

PROFESSIONAL SUMMARY

Software Engineer specializing in ASP.NET Core, C#, .NET, Microservices, REST APIs, Entity Framework Core, SQL Server, Docker, RabbitMQ, and AWS. Experienced building scalable backend systems, distributed applications, and cloud-native solutions using clean architecture and modern software engineering practices.

TECHNICAL SKILLS

Languages: C#, TypeScript, JavaScript, Python, SQL

Frameworks: .NET, ASP.NET Core, Angular, EF Core, RabbitMQ, REST APIs, JWT, YARP

Cloud/DevOps: Docker, Docker Compose, AWS, Git, SQL Server, Airflow

Concepts: Microservices, OOP, SDLC, Agile, Design Patterns

EXPERIENCE

Capgemini

Dec 2025 - May 2026

Trainee Engineer

- Building enterprise ASP.NET Core, Angular and SQL Server applications using clean architecture.
- Developing REST APIs, authentication workflows, Dockerized services and scalable backend patterns.

Amazon ML Summer School

Aug 2025 - Sept 2025

Machine Learning Trainee · Top 3% Nationally

Remote

- Built ML models (XGBoost, SVM, Random Forest) achieving up to 95% accuracy.
- Completed advanced training in statistical ML and large-scale system design.

Infosys Springboard

Oct 2024 - Jan 2025

Project Intern

Remote

- Developed NLP pipelines using Python, SQL and FAISS for financial document retrieval.
- Improved semantic search precision by 35%.

PROJECTS

Mystic Tarot | Full-Stack Digital Consultation Platform

Ongoing

ASP.NET Core 10 | Angular 17 | SQL Server | Docker | RabbitMQ | OpenAI API

[GitHub](#)

- Engineered a 5-service ASP.NET Core microservices backend with YARP API Gateway, JWT role-based authentication, and EF Core with SQL Server using a database-per-service architecture
- Integrated OpenAI GPT-4o-mini for AI-powered tarot readings and built a RabbitMQ-based event-driven notification system with graceful failure handling
- Developed an Angular 17 SPA using standalone components, Signals, role-based route guards, and JWT interceptors; containerized 8 services with Docker Compose and automated database migrations

CraveKart | Microservices Food Delivery Platform

April 2026

ASP.NET Core | RabbitMQ | Docker | SQL Server | API Gateway | C# | Angular 17

[GitHub](#)

- Engineered a distributed microservices backend for a food delivery platform using ASP.NET Core and RESTful APIs
- Implemented asynchronous inter-service communication via RabbitMQ for scalable, decoupled service architecture
- Designed API Gateway routing and centralised request handling for authentication and service orchestration
- Containerised all services using Docker and Docker Compose for consistent local and deployment environments

LPU Connect | Collaboration & Networking Platform

December 2025

JavaScript | TypeScript | HTML5 | CSS3

[GitHub](#)

- Developed a web-based collaboration platform enabling student and faculty networking with skill-based peer discovery
- Implemented authentication workflows, responsive UI components, and searchable user profiles across departments
- Integrated dynamic search and filtering features to improve platform usability and cross-department team formation

EDUCATION

Lovely Professional University

2022 - 2026

B.Tech in Computer Science & Engineering · CGPA: 8.01/10

Jalandhar, Punjab

CERTIFICATIONS & ACHIEVEMENTS

- Amazon ML Summer School — Top 3% Nationally (Aug–Sept 2025)
- Supervised Machine Learning: Regression & Classification — DeepLearning.AI
- SQL for Data Science — University of California, Davis
- Data Science Job Simulation — British Airways (Forage)
- Solved 400+ LeetCode problems (Rating: 1643); Advanced SQL 4-star with 100% score on HackerRank
